Overwatch Group Mission Statement

Overwatch group aims to provide immediate, dynamic and complex security and risk mitigation capabilities in complex domestic and international environments, so as to facilitate business operational continuity throughout the world.

What is Risk management:

Risk management is the identification, assessment, and prioritization of risks followed by coordinated and economical application of resources to minimize, monitor, and control the probability and/or impact of unfortunate events. Risks can come from uncertainty in financial markets, project failures, legal liabilities, credit risk, accidents, natural causes and disasters as well as deliberate attacks from an adversary

Overwatch Group Pty Ltd

Specialising In Worldwide Security

Services Overwatch Group Can Provide:

Security (Close Personal Protection): We can provide security for all manner of high profile public figures; this includes but is not limited to entertainment personalities, high ranking government officials and high profile public figures.

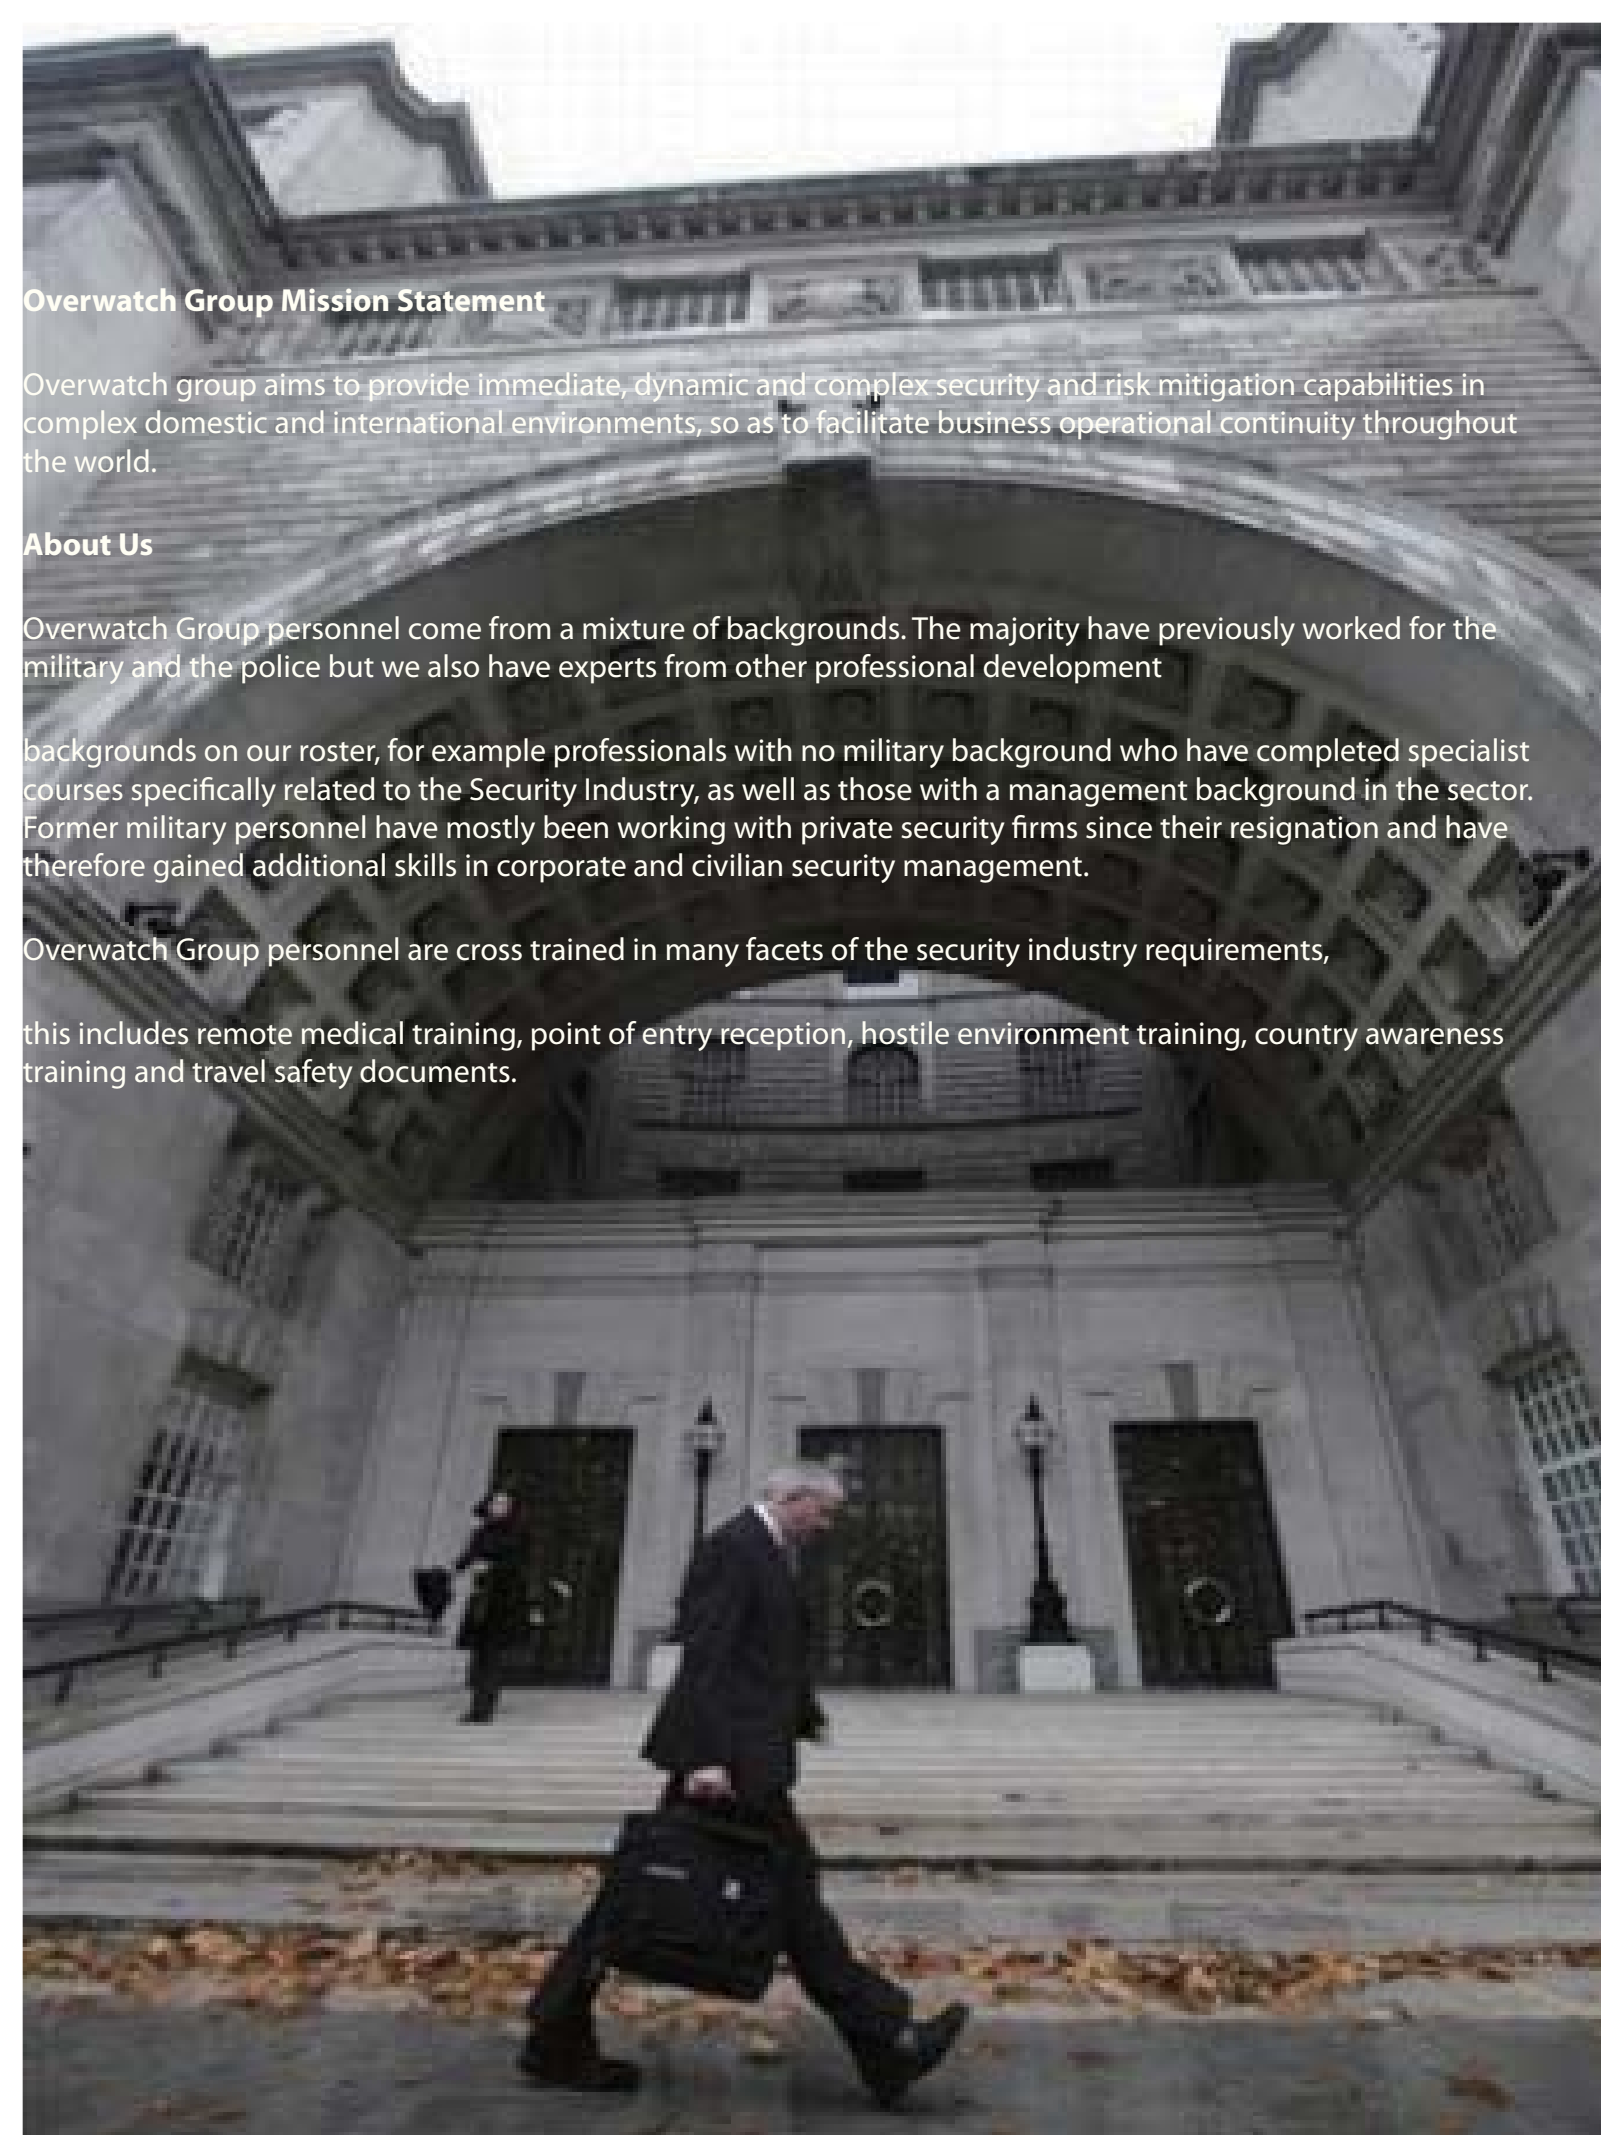

Risk management: Comprehensive identification using a wellstructured systematic process is critical, because a risk not identified at this stage may be excluded from further analysis. Identification should include risks whether or not they are under the control of the organization.

Security Design: In the current world environment regardless if you are in Alaska or Dubai you require world class security design to ensure that you are safe from the world's most dangerous.

Threat Assessments For Remote Regions Of The World: If you are planning on visiting a remote area of the world you are more prone to threats and security issues due to your isolation, we can complete threat assessments before during and after your visit commences.

Advanced Medical Services: Isolation can mean death for serious injuries; we can mobilize and assist in the case of isolated missions or isolated injuries.

Evacuation Facilitation From Country: With the current trend of terrorism you do not know where it will appear next, we can evacuate and assist in the movement of personnel from high threat areas at short notice.

Overwatch Group Mission Statement

Overwatch group aims to provide immediate, dynamic and complex security and risk mitigation capabilities in complex domestic and international environments, so as to facilitate business operational continuity throughout the world.

About Us

Overwatch Group personnel come from a mixture of backgrounds. The majority have previously worked for the military and the police but we also have experts from other professional development

backgrounds on our roster, for example professionals with no military background who have completed specialist courses specifically related to the Security Industry, as well as those with a management background in the sector. Former military personnel have mostly been working with private security firms since their resignation and have therefore gained additional skills in corporate and civilian security management.

Overwatch Group personnel are cross trained in many facets of the security industry requirements,

this includes remote medical training, point of entry reception, hostile environment training, country awareness training and travel safety documents.

Overwatch Group will secure the environments and areas that were once thought to be inoperable due to the threat or location.

- ••Overwatch Group Mission Statement
